

A scenic landscape of a vineyard at sunset. The sun is low on the horizon, casting a warm golden glow over the scene. The sky is filled with wispy clouds, and the sun's rays create a lens flare effect. In the foreground, there are rows of grapevines supported by wooden posts. In the background, there are rolling hills and mountains. A central logo is overlaid on the image.

SANTA EMA®

BACKGROUND

Pedro Pavone Voglino emigrates from Italy's Piedmont and settles in the Maipo Region, in Chile.

The Santa Ema farm is purchased in the Isla de Maipo area, with 35 ha.

FIRST GENERATION

Félix Pavone Arbea, eldest son of Pedro, establishes viña Santa Ema.

SECOND GENERATION

Family Vineyard, exclusive wines. More than **60 years of experience in the wine industry**. Very strong and recognizable brand available in more than 30 countries. Leaders in Maipo Valley, one of the most important valleys in Chile for the production of red wines.

THIRD AND FOURTH GENERATION

GREAT REASONS TO PREFER US

We export over **250,000 cases annually to more than 30 countries.** Our wines are the expression of mountain Terroirs, river bed soils and cool coastal climate conditions.

We have 200 stainless steel tanks of various capacities, more than 3,700 oak barrels, ceramic eggs and 5,000 liters foudres.

COMMITTED TO PEOPLE AND ENVIRONMENT

NATIONAL CODE OF SUSTAINABILITY

Obtained in 2011 from the Wines of Chile Consortium, this certification backs the proper use of sustainable practices in 3 areas: **Vineyards, Facilities and Social responsibility.**

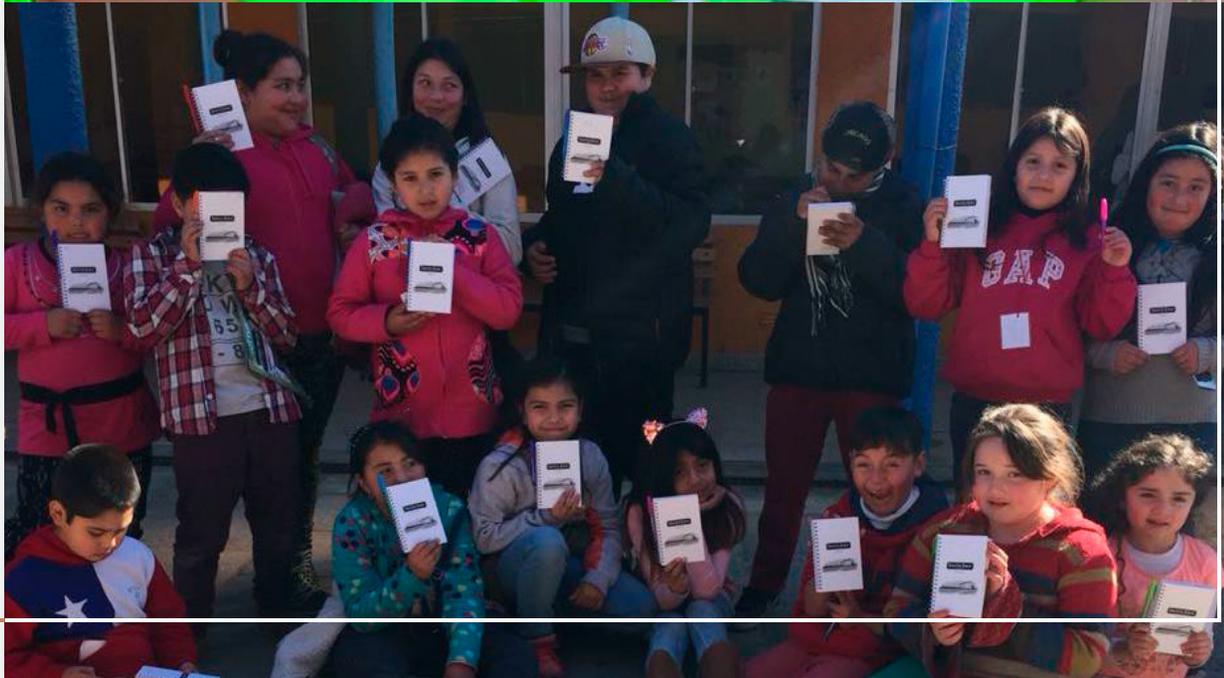

- Reduction in energy consumption in all processes.
- Biological conservation areas in all farms.
- Use of natural grass carpets to promote soil conservation.
- Responsible management of solid inorganic waste.
- Use of fertilizers that favor the proliferation of natural enemies.
- Irrigation practices based on efficient use of water.

CORPORATE SOCIAL RESPONSIBILITY IN SANTA EMA, CREATING VALUE

Santa Ema works arduously throughout the year in distinct projects of Corporate Social Responsibility, which are sustained in the creation of environmental, economic, and social value, focused on local communities, collaborators, and interests groups.

The Company is aware of the different impacts it generates on an environmental and social level, promoting the positive aspects and reducing the negatives, with the objective of generating fundamental growth that involves both individuals and organizations.

Distinct activities take place, with a focus on workshops, donations, support, and sponsorship in the areas of education, sports, entrepreneurship, campaigns focusing on responsible consumption, and supporting products, among others.

EL PERAL / WINERY

We have a modern winery, built in 2003, in the middle of 50 hectares 124 acres of vineyards in our El Peral farm. It is equipped with high **technology and sustainable architecture** that allows ventilation, lighting and cooling to be carried out naturally. 4 concrete eggs of small volume (2,000 L 528 gallons), for the **vinification of small batches of high quality wines**. Production capacity of 100,000 kilos/day and a storage capacity of 3,5 million liters 925 thousand gallons. 90 stainless steel fermentation tanks with automatic temperature control.

IZAGA / PRODUCTION CELLAR & BARREL ROOM

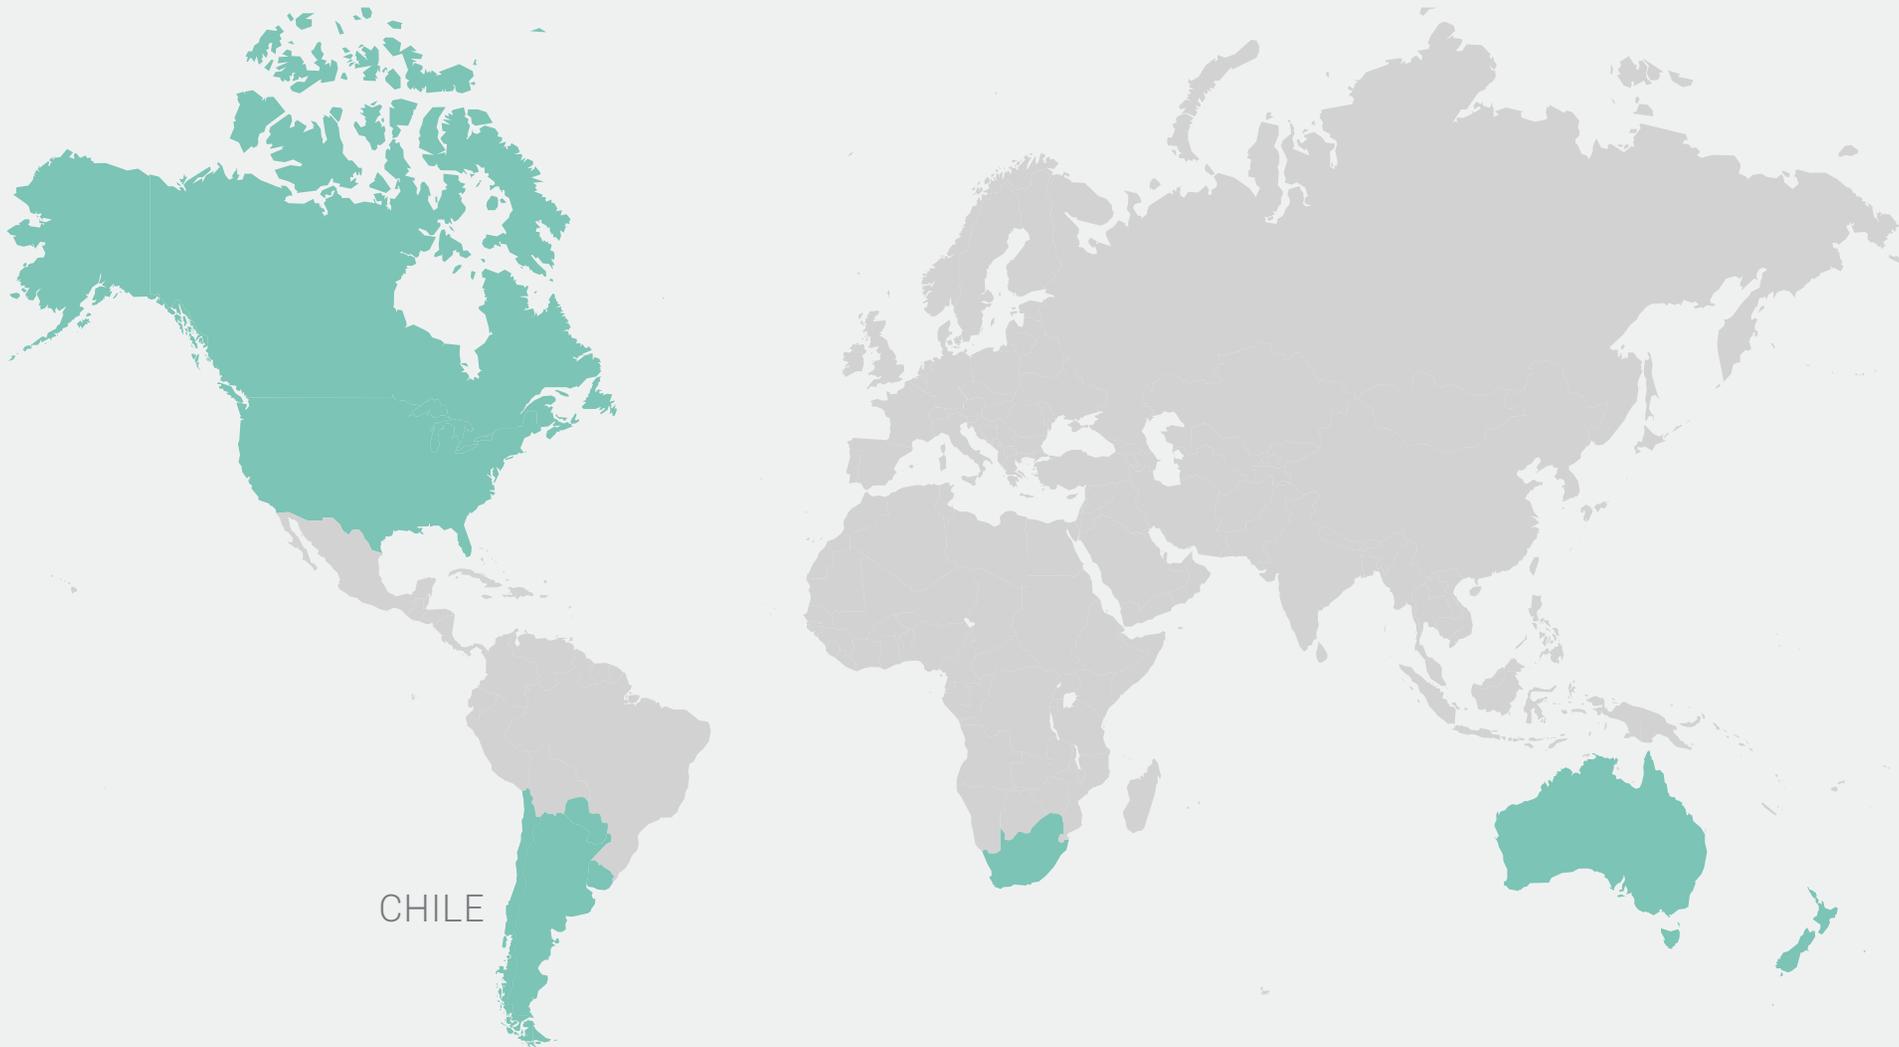

Our winery has been in operation since 1956 and is where the last stage of the production process is carried out, blending, packaging, labeling and dispatch. Built with sustainable characteristics of natural light and thermal insulation, it allows saving energy and support to the air conditioning system.

Our barrel and storage room has a total capacity of 4 million liters 1 million gallons for final blends between barrels and stainless steel tanks. It has more than 3,700 oak barrels of French, American and Hungarian origin, that rest under the care of an air conditioning system with temperature control at 14°C 57 F and 85% humidity.

- PH Alcaline 7 to 8

CHILE DIVERSE SOIL

Chile's unique geography with the Andes Mountains, the coastal range of mountains and the large and different latitudes where we cultivate vineyards, create a rich diversity of microclimatic conditions that produce a rich diversity of wines.

A MOSAIC OF TERROIRS

Diverse Topography

- Coastal Range
- Central Valley
- Andes Mountains

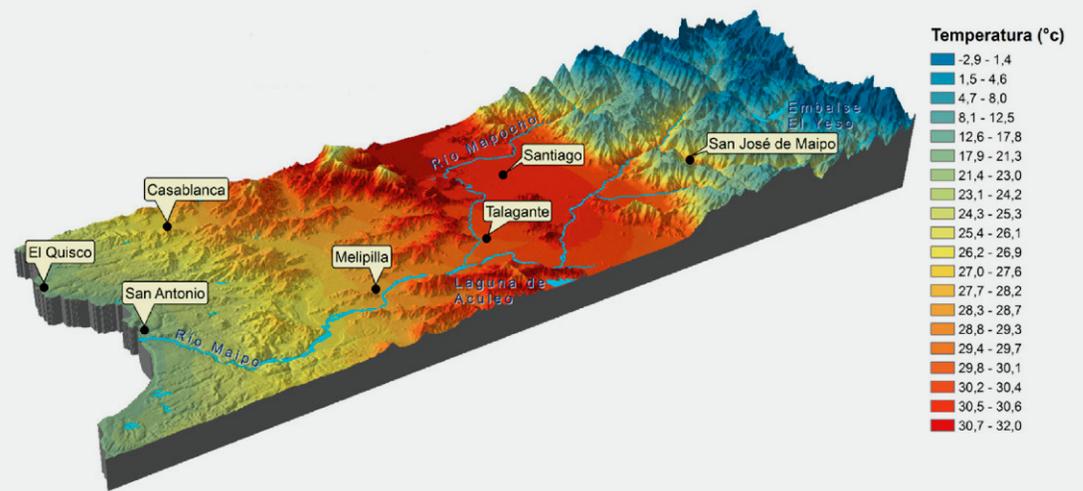

Healthy Soils

- Well drained
- Great airing
- Variety of texture

Pure Water

- Irrigation from the Andean ice melt

MAIPO VALLEY TEMPERATURES

OUR VINEYARDS

Our main terroir... The Maipo Valley. Today's most important valley for the production of the best red wines from Chile.

Maipo Valley, Santa Ema's home & heart. Here we have two very important vineyards: Cerro Blanco & El Peral.

For the white and coastal wines such as Pinot Noir and Syrah, we have an outstanding vineyard in the San Antonio Valley, Leyda . Cool climate wines.

MAIPO VALLEY

MAIPO ALTO / Pirque, 112 HA - 277 Acres

Colluvial soils with clay loam texture and low fertility. Its high level of angular stones and its slope allows to have ventilated floors, with good porosity and drainage. Average rainfall of 260 mm 10.2 inches. With an elevation between 700 and 1000 meters asl (2,300 to 3,280 feet), the thermal oscilation at which the vines are exposed is 25 celsius (46 F) between day and night, characteristic of the Andes Mountain Range in this area.

Terroir privileged by its temperate Mediterranean climate, dry summers and low relative humidity. This allows a greater concentration of color and tannins in the berries, ideal for obtaining more complex wines and mature tannins, with greater body and consistency.

VARIETIES: Cabernet Sauvignon, Carmenere, Malbec, Syrah, Cabernet Franc, Carignan and Merlot.

MAIPO MEDIO / Isla de Maipo, 50 HA - 124 Acres

River bed soils, alluvial, stony, rich in minerals and with good permeability, which naturally controls the vigor of the vine. With rainfalls of up to 315 mm 12.4 inches per year, they are more fertile soils. Due to its proximity to the banks of the Maipo River, maintains a regime of fresh winds along with the influence of the Humboldt current, which enters as a coastal mist in the morning, moderating summer temperatures ranging between 15° and 30° C 59 and 86 F. Special conditions that give great expressiveness of aromas to reds and allow to harvest fruity whites with a good balance of acidity.

VARIETIES: Cabernet Sauvignon, Merlot, Chardonnay, Malbec and Sauvignon Blanc.

MAIPO COSTA / Leyda, 40 HA - 99 Acres

Smooth, undulating hills with granite and clay textured soils. With an average rainfall of 350 mm 13.8 inches per year and without the risk of frost. Only 9 kms 6 miles inland from the coast, its cold climate is the product of the strong influence of the Pacific Ocean breezes, with a low thermal oscillation in summer between 10° and 12° C 18 to 22 F . These characteristics allow a slow maturation, which gives a good balance of sugar and acidity, in addition to a correct development of aromas. Unique wines that stand out for their elegance, freshness and minerality.

VARIETIES: Sauvignon Blanc,
Chardonnay, Syrah and Pinot Noir

BRAND PORTFOLIO

RIVALTA - ICON WINE

- Unique blend that is made from a selection of the best 20 oak barrels of the vineyard.
- An outstanding icon wine that come from the highest vineyard in the Maipo Valley. Cerro Blanco.

"A fresh and delicious nose showing notes of orange rind, cedar, freshly picked blackcurrants and plenty of herbs and spices.

Full body, juicy on the palate with some nicely layered tannins and a tangy streak through to the savory finish".

James Suckling. Rivalta - 93 Points

CATALINA - ULTRAPREMIUM

- Outstanding blend of Cab. Sauvignon, Carmenere and Cab.Franc.
- Three iconic red varieties from Chile.
- All the elegance and harmony of Santa Ema's style in a single bottle.
- More than 25 years of history around the world.

"A serious red with blackcurrant and hot stone character. Full body, balanced and juicy with berry and chocolate flavors. Focused finish. A blend of Cabernet Sauvignon, Carmenere and Cabernet Franc."

James Suckling. Catalina - 91 Points.

AMPLUS - MOUNTAIN VINEYARDS

Varieties: Cabernet Sauvignon, Carmenera, Merlot, Marselan, Chardonnay and Carignan.

- Single Vinyard wines .
- One variety. One terroir
- Unique wines with a more complex oenological style.
- Wines designed to combine a wide range of gastronomic styles.

"From vines of more than 80 years of age, this has a very fresh and gently leafy nose with intense red plums and berries, swathe in cedary oak and hints of leather and dried leaves. The palate offers a terrific sense of density with long and rich, fine tannins that carry evenly. Old vine soul here. Really seamless"

James Suckling. Amplus Carignan - 93 Points.

GRAN RESERVA

Varieties: Cabernet Sauvignon, Merlot, Carmenera, Malbec, Syrah, Pinot Noir, Chardonnay and Sauvignon Blanc.

- Wines made to satisfy a wide range of consumers.
- Quality and consistency for more than 60 years.
- Viña Santa Ema's most recognized wines.
- Wide variety of strains with incredible international awards.

"Fresh blueberry compote, vanilla and cloves. The fruit is very generous but it's really in balance and and so linear with lovely firm tannins and pretty acidity. A fruity yet minerally finish".

James Suckling. Gran Reserva Merlot - 92 Points.

BARREL RESERVE 60/40

60% Cabernet Sauvignon
40% Merlot

- One of the first blends of Chile.
- More than 20 years in the market.
- Made of 2 characteristic Chilean varieties, such as Cabernet Sauvignon and Merlot.
- A wine of great worldwide acceptance.

SELECT TERROIR RESERVA

Varieties: Cabernet Sauvignon, Merlot, Carmenera, Chardonnay, Rosé, Moscatel de Alejandría and Sauvignon Blanc.

- Great varietal expression.
- Young, fresh and easy to drink wines.
- Very easy to pair with different styles of foods and dishes.
- Versatile wines of high quality and consistency over time.
- Wide range of varieties.
